Programming

- Java, JavaScript, HTML, CSS, Pyhton, PostgreSQL

Creative Skills

- Graphic design, photography, illustration, and animation

Language

German (nativ)

English (B2)

Vietnamese (basic)

Spanish (A1)

About

There's no day without a to-do list for me. I enjoy teamwork because I believe great goals can only be achieved together. At the same time, I like to bring my own creative touch to every project I'm involved in. I like to express myself in many ways. As a computer science student, I am structured, creative, and passionate about leading teams in group projects. I welcome challenges as opportunities to grow and improve my skills.

Education

2024 – Today
HTW Berlin University of Applied Science
Studying International Media and Computing at HTW Berlin.

2021 – 2024
OSZ Max-Bill-School
Completed my A-levels a school known for its focus on media and design.

Work Experience | Internships

Feb. 2025 - Today
Tech4Girls Course Leader
Teach young children the basics of computer science, aiming to reduce the gender gap in tech.

Oct. 2024 - Mar. 2025
Cashier at MediaMarktSaturn (Alexanderplatz)
Independently operated the cash register and processed payments. Provided friendly customer service and assisted with various customer inquiries.

Jun. 2019
Internship at WETEK Medienzentrum Pankow
During a project week for a school, I was responsible for recording and editing footage into a final video.

Works And Projects

Feb. 2026
OpenGL Custom 3D Renderer (Java)
Built a custom 3D rendering project from scratch using Java and OpenGL. Featured matrix mathematics, custom GLSL shaders, and a deep understanding of computer graphics pipelines.

Feb. 2026
Maya 3D Modelling – Coffee Machine
Created a detailed 3D model of a coffee machine using Autodesk Maya. Handled all aspects of the 3D pipeline, including modeling, texturing, and professional 3-point lighting using the Arnold renderer.

May 2025
ZuulGame – Text Adventure Game (Java)
Co-developed a text-based Java adventure game, focusing on object-oriented programming, interactive storytelling, and client-server networking via Java Sockets.

Jun. 2021
VALORANT DACH: Creative Clash Winner
Won the official 'Creative Clash' design contest for the game Valorant. Created an award-winning digital art entry featuring graphic design with animation.
